We have a business model that has been a success from the very beginning

We operate in the weight management and nutrition sector

Our business model is based on implementing our own, distinguishing method – the “Naturhouse Method”. This method combines selling products with free personalised advice and monitoring from a qualified specialist.

Sale of products: 98% of sales in 2017

+

Free advice from a specialist

Own distribution channel: Naturhouse Centres

The “Naturhouse Method” is exclusively applied in Naturhouse Centres, of which just 9% are directly-operated stores (DOS). The rest are franchises (82%) and master franchises (9%).

Our products are sold exclusively at Naturhouse Centres

Food Supplements:

made with natural extracts to facilitate the intake of specific nutrients, allowing for specific actions during the weight loss process.

Functional Food:

consisting of diet products for breakfast, snacks and meal substitutes for controlling calorie intake.

Cosmetics and Body Care:

Beauty products associated with skincare during the weight loss process (*cellulite, firming, etc.*) and anti-ageing.

Present in the enter value chain

Naturhouse has equity interest, whether direct (*Ichem 24.9% capital*) or indirect (*through its leading shareholder*), in some suppliers, thus guaranteeing the supply of products to our centres.

Can be exported to any country in the world

34 countries and 2,369 centres in 1H18

In 2017, 97% of our income came from Spain, Italy, France and Poland.

We have no geographical restrictions in terms of establishing our business. Improving eating habits is a global need (*Western Europe*): % of the population that is overweight = 36% (146m people) and % of population that is obese = 18%*.

Centre types

Directly-operated stores (DOS)

Directly-owned centres are managed by the company with its own staff. They tend to be the laboratories for new ideas for the Group's other centres as well as a training hub for employees and franchisees. They are also the foundation for growth in new countries.

Franchises

Franchised centres are Naturhouse Centres operated by third parties under the franchise model.

Master Franchises

In addition, Naturhouse has contracts called 'master franchises', through which a third party can exclusively operate Naturhouse's business for a whole country.

☐ Main markets

- ✓ Main focus on sales growth.
- ✓ A commitment to products that are not necessarily linked to weight loss, thus allowing us to attract new customer profiles and increase the average sale amount.
- ✓ Directly-operated stores will be transferred to franchises, especially in Spain and Portugal.
- ✓ Directly-operated stores will be opened in locations where Naturhouse is not yet present.
- ✓ Advertising campaigns aimed at capturing a more diverse range of customers.
- ✓ Promotion of continuous training for our franchisees and staff in directly-operated stores.

☐ New markets

- ✓ Addition of new countries through master franchise contracts.
- ✓ We continue to be committed to an integrated model of stores and online sales in the US and the UK, where initial online testing is performing better than expected. Given this success, the Group plans to spend more resources, with the aim of gradually adapting to new technologies. This will mean we can advance more quickly in developing the two markets.

☐ We will maintain the strength of our balance sheet and our considerable cash generating ability.
