The Board of Directors has agreed to a second interim dividend for 2018 at €0.05/share, to be paid on 14 December. Along with the dividend paid in September, our dividend yield stands at 9.4%.*

We continue to work to return the company to growth, and to do this, we are studying a new commercial approach based on a change in image and the layout of our stores in order to increase their profitability, contribute to attracting a younger audience and extend the shopping basket towards products that are not connected with weight loss.

Our EBITDA margin stands at 29%, which is almost double the industry average in the US⁽²⁾.

At the end of the first half of the year, Naturhouse had operations in 34 countries with 2,363 stores, of which 99% are in Europe, thus consolidating the Group as the continent's undeniable industry leader.

☐ Turnover at the end of 3Q18 stands at €68.9m.

✓ In France, sales have fallen due to bad climate conditions, strikes, increased competition and lower productivity due to the reorganisation of the sales departments. To combat this, Naturhouse has implemented a larger than normal advertising campaign for this time of year, which will continue throughout the fourth quarter, while also bolstering our sales network.

✓ In the case of Spain and Italy, retail challenges are taking their toll on sales. Notwithstanding, we remain confident that we will turn the situation around in the coming quarters.

✓ As for Poland, the emergence of a new competitor is leading to a slowdown in growth. As such, Naturhouse is asserting its brand potential with the opening of directly-operated stores, in order to then transfer them over to franchisees in the coming months.

✓ As for the other countries, the fall has mainly come through Portugal's decline, with new countries⁽¹⁾ growing at rates of over 25% compared with the same period in 2017.

✓ Meanwhile, sales to master franchise countries are up 12%. Expansion in China is under way and significant progress is being made in India, to the extent that we will be able to open our first store in the coming months.

☐ EBITDA has reached €20m.

✓ EBITDA has fallen in France due to lower sales figures, although to a lesser extent than in other markets.

✓ EBITDA in Spain has been affected by increased advertising expenditure, transferring the headquarters from Barcelona to Madrid (+€0.8m) and increased rental costs.

✓ In Italy, the rise in staff costs (+€0.3m) and advertising are the main culprits.

✓ In Poland, there has been a significant rise in advertising (+€0.4m), staff costs (+€0.4m) and rental expenses (+€0.2m) due to a higher number of directly-operated stores.

✓ Expansion into new countries⁽¹⁾ has had an impact on EBITDA, valued at -€0.53m.

This has all had an impact on non-recurring costs to the value of €2.6 million.

Strategy

- ✓ Improvements in the sales network, which will allow us to improve the service provided to our franchisees.
- ✓ Drive sales of products that are not necessarily linked to weight loss, allowing us to attract new customer profiles and increase the average sale amount.
- ✓ Transfer directly-operated stores to franchise status, especially in Spain and Poland.
- ✓ Studying an image change in stores towards a format we call *Tienda 2.0*, where customers can head directly for products not linked to weight loss without requiring advice, given that said products are all categorised. This will allow us to promote the items we already have on sale and which do not currently make a significant contribution in terms of turnover.
- ✓ Increase resources allocated to online sales. Initial testing is being successfully undertaken in the UK and US.

Goals

- ✓ Increase sales in main countries and new markets.
- ✓ Increase international presence.
- ✓ Ensure EBITDA margin of more than 30%.
- ✓ Maintain solid balance sheet and cash generating ability.
